It's spooky season...

One of our most favourite times of the year, second only to Christmas! We had a month full of little frights, creepy crafts and scary costumes!

ECCE class!

The Poppies children had a great month! They explored some new alphabets, numbers and shapes through playdough, paint and fun crafts. They also spent a lot of fun times in the playground, on several occasions finding little worms (much to the teacher's quiet horror) that are now coming out to explore the autumn rains! Just look at that worm that this teacher felt the need to show you a picture of (you're welcome)! They tried to give the worm a little snack too!

They also did so many Halloween themed activities- they made their own Jack-o-lanterns, ghosts, bats and more! They had a great little Halloween party as well, on the last day before the break!

ASD classes!

Daisy and Hibiscus class children have also been having a ball! We have all been working very hard on our own individual learning programs and are progressing through them so well!

We have also been exploring Autumn, now that the leaves are all turning such beautiful colours! The children went on several walks to pick up all the different leaves for sensory play! They explored an autumn box with leaves, conkers, acorns, pumpkin seeds and more! They made a spooky soup with oak leaves, pumpkin seeds and pulp, acorns and purple paint (for the added glamour, of course!)

They also made their own autumn dessert-baked apple! They chopped the apple, sprinkled some brown sugar on it and microwaved it for a minute to have their own healthy dessert!

They also did so many Halloween crafts! They made witches, ghosts, scary handprints, pumpkins and skeletons! They also helped the teacher decorate the door for a Halloween door competition! It has been a fun filled month of painting, crafting, decorating, cooking and celebrating in spooky costumes! Happy Halloween, everyone!
